

# Testimonials

Here are some of the testimonials we have received from some of our partners

"I just wanted to say thank you for our fantastic health and wellbeing event in Wavertree today. It was great to see so many people there and actively participating in everything that was on offer. Please can you pass my thanks on to the organisations represented and to the staff who made everything possible." *Councillor Helen Casstles*

"I want to thank you and the CHATs team for all your help in putting on a magnificent health awareness event at St David's Church Friday Café on 5 February. It was the most successful 'First Friday of the month' event we have ever done with more people than ever in attendance. The feedback we have had from residents has been brilliant. To have so many services present was just amazing. I can't thank you enough for the hard work you have put into this. I only hope we can work with you again in the future". *Councillor Jeremy Wolfson*

"I just wanted to give you a little feedback after yesterday's event at STEC, we directed as many of the visitors as possible from swap shop and it seems they all popped in. They loved the fruit and veg bags and one person messaged me to tell me how pleased she was with it as she has made use of it for dinner last night. The arm chair yoga was great and I know one or two were apprehensive to do it, but they really enjoyed it. I myself saw the lady from Fagends and have started the path to giving the cigarettes up. Thanks for coming along and it definitely would be something people would be interested in again." *Angela, the Original Swap Shop*

"Fazakerley Health and Wellbeing Forum would like to thank you on behalf of Fazakerley Community, for the Health event that you held at our Community Centre on Friday 19 February 2016. We have received such great feedback from our community on the health event and Fazakerley Health and Wellbeing Forum has had an increase in interest in our wellbeing projects, Men's yoga and our cycle club"  
*Annie Rogers, Fazakerley Health and Wellbeing Forum*

"I would like to thank the CHAT's team for a brilliant event. Walton Sports and Wellbeing Centre are extremely grateful for the organisation and collaboration of the service users and the providers. This was something for all our community to engage with, we also got lots of positive feedback from the customers as they left the event...."  
*Tammy Burgess, Alt Valley Community Trust*
